Villa Elba Kayak Tour

Discover the seas and archipelago of the Gulf of Bothnia

Various paths and spots

The Central Ostrobothnia archipelago offers various different kayak routes from narrow paths to open seas

The sea and the archipelago have always been a vital part of the area of Kokkola. Kokkola is an old seaport with a rich history of ship building and seafaring. The archipelago of Central Ostrobothnia offers an excellent landscape for kayaking.

Villa Elba

Youth Centre Villa Elba is located at the shore of Gulf of Bothnia, only 4 km from the Kokkola town center. We offer interesting programs, tasty food and cozy accommodation in old villas, sailor's cottages and in modern cottages in a seaside atmosphere.

A bird protection area with its nature paths is situated right next to us and that is why our programs emphasize on sea activities and environmental education. We also rent equipment like canoes, SUP-boards and fat bikes for excursions on your own. In addition, we provide additional programs in case you want to stay in Finland for a longer time.

The kayak trip is open from June to September and it welcomes everyone from the age of 13 upwards. Come and experience the Villa Elba atmosphere and adventures on the sea!
